

DEA Museum Activity Sheet

INTRODUCTION

To be a Junior Special Agent, you must go through training at the DEA Academy. You also need to know about drugs and their history. Finish the activities on these pages and you will receive your DEA Junior Special Agent Certificate.

Activity 1

Look carefully through the **Illegal Drugs in America** exhibit to answer the following questions:

1. What drug has been around for thousands of years and was used so much that people even made a statue honoring it?

2. In what country did the Opium Wars take place?

Find that country on the map and circle it.

3. Name one company that made products with drugs. It is still in business today. (Hint: it sells soft drinks.)

Bonus Question (you may need an adult to help you). Find another company that made products with drugs and is still in business today. (Hint: it sells aspirin.)
